WIN Your horse must finish 1st.
PLACE Your horse can finish 1st or 2nd.
SHOW Your horse can finish 1st, 2nd or 3rd.
ACROSS THE BOARD You’re betting all three at once to WIN, PLACE and SHOW.

WHAT THIS TICKET REPRESENTS
On race 5 you have wagered $2 to Win, Place and Show on horse #1. The total cost of the wager is $2 Win + $2 Place + $2 Show = $6

EXACTOR Your 2 horses must finish 1st and 2nd in the exact order. Say: "$2 Exactor 5 and 6". Horse 5 must win and 6 finish 2nd. This bet will cost $2.
TRIACTOR Your 3 horses must finish 1st, 2nd and 3rd. Say: "$2 Triactor 5, 6, 7". Horse 5 must win, 6 finish 2nd and 7 finish 3rd. This bet will cost $2.
SUPERFECTA Your 4 horses must finish 1st, 2nd, 3rd and 4th. Say: "$1 Superfecta 5, 6, 7, 8". Horse 5 must win, 6 finish 2nd, 7 finish 3rd and 8 finish 4th. This bet will cost $1.00. Combinations available for $0.20, but must equal $1.00.

BOXING YOUR EXOTIC WAGER
The term “box” is used when you place a wager on two or more horses in one race to cover every possible winning order of finish. When you box your horses, you are simply making multiple wagers on one ticket. A box can be used on any exotic wager (Exactor, Triactor or Superfecta). An example would be if you box 4, 5 and 6 in an exactor you are actually buying combinations 4-5, 4-6, 5-4, 5-6, 6-4 and 6-5. If you made your base $2, the total cost of the boxed ticket would be $21.

HOW MUCH DOES IT COST

Know your limit, play within it.
When you wager on horse racing, you’re playing against other players, not against the house.

### Daily Double
- **Definition:** Picking the winner of two consecutive races.
- **Example:** "$2 Daily Double 5 and 2" means horse 5 wins the first race and horse 2 wins the second race.
- **Minimum Wager:** $2

### Win 3
- **Definition:** Picking the winning horses of three consecutive designated races.
- **Example:** "$1 win 3, horse 5 with 2 with 2" means horse 5 wins the first race, followed by horse 2 in the next two races.

### Win 4
- **Definition:** Picking the winning horses of four consecutive designated races.
- **Example:** "$1 win 4, horse 5 with 2 with 2 with 5" means horse 5 wins the first race, followed by horse 2 in the next three races.

### Pari Mutuel Wagering
- **Definition:** Players bet amongst themselves in various pools that are offered. The track takes a percentage of the pool to pay for the costs associated with hosting the races (see percentages below). The winning bettors who choose the correct bets are paid off by the bettors who had the incorrect bets.

### Keying Your Exotic Wager
- **Keying:** Used when you place a wager on three or more horses in one race singling out one horse to win with the other horses to follow in any order.
- **Example:** If you keyed horse 2 with horses 4 and 5 on an exactor bet, you are in fact making two bets: 2-4 and 2-5. If you made your base $2, the total cost of the key ticket would be $4.
